

Access free COPE Accredited CE courses any place, anytime

Together, we share the same mission of improving patients' health through quality vision care. We provide a series of free COPE Accredited CE courses to support that mission and your focus on caring for patients.

Explore these courses available in our training library at marchvisioncare.com:

The Role of Optometry in the Management of Diabetes (1 credit)

Optometrists have unique skills that can assist in the management of vision loss and can help improve outcomes for diabetes patients. This course helps provide the fundamental elements that you should consider in redirecting the care they provide and assuming a more aggressive role in the care of people with diabetes.

Advancing Health Equity* (3.5 credits)

This course provides an overview of the fundamentals of health equity and ways that health care professionals can apply the knowledge, skills and attitude to tailor health care delivery to all.

Caring for the LGBTQ+ Community: An Introduction* (1.5 credits)

This course raises awareness of the identities and experiences of the LGBTQ+ community. You will discover ways to address the unique health-related disparities affecting the community and create environments in which LGBTQ+ individuals can feel validated, safe and welcome in your practice.

*You will have to create a free account with OptumHealth to start these educational modules and claim the credits. If you need help, please follow the [instructions](#) or reach out to moreinfo@optumhealtheducation.com.

More free COPE Accredited CE courses are in development and will be available soon. Continue to check our expanding **course library** at marchvisioncare.com and access the free courses.
